

QUALITY and SAFETY

Yachtline 1618 S.p.A. is a company leader in Luxury Interior Manufacturer.

With over thirty years of experience, has been directed towards nautical furnishing, specializing in interiors for yacht between 30 and 120 mt.

The company has achieved levels of excellence harmonizing technology and craftsmanship and is known as a reliable reality and capable of organizing and managing, time delivery, planning and implementation at the customer's order.

The production philosophy is based on research, inventiveness, synergy with Suppliers and Employees, on the exploitation of people and skills and human resources, on the culture of safety and health of workers and the maximum respect for people and the regulations. This system allows the development of innovative manufacturing systems and assembly that make us a leading company in the custom furniture market for interiors.

The principal targets are always **the full satisfaction of the customer** and **the protection of the health and safety of workers**, which together represent our image as a reliable company, and in which the value of the person prevails over the value and economic interests.

In consideration of these assumptions, the Company maintains an Integrated Management System for Quality, Safety and Health in the Workplace (SLL) according to UNI EN ISO 9001 and BS OHSAS 45001. The Company is aware that to continue on the path of growth and quality it is necessary that each person can work peacefully in a secure environment, protected, where his skills are valued.

Our commitment is constantly aimed at understanding the context in which we are associated with an intervention identify the needs and expectations of the relevant stakeholders, in order to define the strategic needs and useful actions to face the threats and opportunities that lie ahead for our Company.

We are committed to meeting every requirement applicable to our business, to deepen and share them knowledge of the legislative aspects, respect every law and regulation above all concerning occupational health and safety.

In particular, our objectives and our continuous commitment are aimed at:

1. To increase both in Italy and abroad the competitive position reached.
2. Increase the research and development of additional systems in order to obtain exclusive patents.
3. Acquiring new skills by exploring more fields in addition to the yachting field.
4. Set in a more efficient manner the Company's marketing.
5. Spread inside the company and outside the advanced culture of worker safety / health and maximum respect for the single person and the regulations.
